# DURAROOF®

## PVC Roofing and Sidings

**Durarroof®** is made of high quality Homogenous Colored PVC materials in which perennial problems of rust painting and maintenance is **zero**. It is all-weather roofing and siding panels suited for tropical climates and for tropical climates and for *High Level Corrosive Areas* like seaside and chemically fumed places.

### CUSTOMER BENEFITS

#### Insulating Capacity

*Durarroof® is 99.53% less thermal conductive versus pre-painted metal roofing/siding sheets that result to Cooler Environment. It will save additional expenses and time in installing heat-insulating materials and electric power consumption will be drastically reduced.*

#### Lightweight

*Durarroof® is made of light granule materials which help reduce dead loads on roofing framing structures resulting in lesser expenses on overall structural and foundation cost. It is Workably Light that induces Speed in installation-assembly process.*

#### Impact Resistant

*Durarroof® is Durable, Resilient, Tough and can withstand High-Impact loads without a damage. It has UV Stabilizer that can sustain hazardous sunrays to eliminate chalking, brittleness, and cracking when in place.*

#### Fire Retardant

*Durarroof® is made of Non-Flammable materials that stop combustion. It carbonates when subjected to fire and will not drip or break-up like ordinary plastics.*

### APPLICATIONS
